Voltage Regulation and Power Conditioning

STACO ENERGY[®]

PRODUCTS CO.

SERVISTAR[®] Field Service Program

Staco specializes in providing choice and flexibility by developing tailored solutions for preventive and remedial maintenance services for all of our products. Our factory trained technicians are available to provide professional services from project inception and design, commissioning, and care throughout the life of your product.

- **ServiStar can be tailored to meet your specific needs in addition to our current service options.**
- **ServiStar is a comprehensive field service program designed for maximum equipment availability.**
- **ServiStar provides security beyond our standard warranty.**
- **ServiStar covers preventive maintenance and all emergency repairs and related costs.**
- **ServiStar is built on a nationwide network of highly trained, motivated customer support engineers and technicians.**

Why Staco Energy Products?

Because we are your tailored power solutions provider!

Unique application design demands, harsh environment concerns, the need to meet non-standard physical space requirements—providing the “not so usual” is what we do best. From leading edge uninterruptible power supplies, power conditioners, power factor and harmonic correction equipment, to the world’s most stable voltage control systems, we have the technology you need to protect and manage your business, and the knowledge to make it work for you.

Since 1937, customers worldwide have relied on Staco Energy as their tailored solutions provider, to solve a wide range of electrical power problems. Headquartered in Dayton, Ohio, Staco Energy Products is a wholly owned subsidiary of Components Corporation of America, located in Dallas, Texas.
